GreenMobility Q1-2026: 8% Revenue Growth and 60% EBITDA Improvement

GreenMobility generated a revenue growth of 8% in Q1-2026 compared to Q1-2025, reaching DKK 35.5 million. EBITDA increased by 60% compared to Q1-2025, reaching DKK 11.0 million.

In Q1 2026, which is seasonally the weakest quarter for GreenMobility, the operations have continued a strong improvement month by month highlighting that GreenMobility is on track to reach our guidance for 2026.

At the end of the quarter a new app was introduced. This next-generation platform is designed to enhance customer experience, enable better onboarding, yield management, and backend efficiencies.

Operational enhancements also include the continuation of the rollout of smoke/vaping detectors across the fleet. These upgrades will improve our ability to charge customers for damages, discourage smoking/vaping, ultimately leading to better customer experience and improved profitability.

In late March the first of 185 additional electric vehicles were infleeted. A full infleet is expected to be finalized in Q2.

Q1-2026 compared to Q1-2025

- Revenue increased by 8% from DKK 32.8 million to DKK 35.5 million
- EBITDA improved with 60% from DKK 6.9 million to DKK 11.0 million

Guidance

GreenMobility's results in Q1-2026 are in line with our financial guidance for the financial year 2026:

- Revenue growth of 8-12%
- EBITDA growth of 12-16%

Forward looking statements

Matters discussed in this report may constitute forward-looking statements. Forward-looking statements are statements that are not historical facts and that can be identified by words such as "aspirations", "believe", "expect", "anticipate", "intends", "estimate", "will", "may", "continue", "should", and similar expressions, as well as other statements regarding future events or prospects. Specifically, this report includes information with respect to projections, estimates and targets that also constitute forward-looking statements. The forward-looking statements in this report are based upon various assumptions, many of which are based, in turn, upon further assumptions. Although the company believes that these assumptions were reasonable when made, these assumptions are inherently subject to significant known and unknown risks, uncertainties, contingencies and other important factors which are difficult or impossible to predict and are beyond its control. Such risks, uncertainties, contingencies and other important factors could cause actual events to differ materially from the expectations, projections, estimates and targets expressed or implied in this report by such forward-looking statements. The information, opinions and forward-looking statements contained in this report speak only as at its date and are subject to change without notice. GreenMobility A/S expressly disclaims any obligation to update or revise any forward-looking statements, except as required by law.
